

FINANCIAL POLICIES
ROBERT S. OLIVER, D.D.S.

Payment for services are due in full the day of treatment. If your child has dental insurance coverage and we have verified the benefits under his or her plan, we will issue a claim to the insurance carrier on the day of service. **In most cases, restorative benefits do not cover 100% of the dental treatment; the estimated patient's portion for the work will be determined by our financial coordinator and will be due on the day of treatment.**

**Payments may be made by: 1) Cash 2) Check 3) MasterCard or Visa
4) CareCredit (see below)**

Nitrous Oxide, Conscious Sedations, General Sedations: Payment for anesthesia will be due in full the day of treatment. In almost all cases, dental or medical insurance programs will not assume these charges.

Returned Checks: Our service charge is \$25.00 for checks returned to us because of insufficient funds. We ask that repayment be handled in a prompt manner to avoid collections.

Deposit Policy: It takes great effort, time and coordination in scheduling our patients. If your child's treatment requires a Conscious or General Sedation, a non-refundable deposit may be required prior to scheduling. We will then apply the deposit towards your portion due on the day of service.

No Interest Payment Plan: CareCredit is a revolving line of credit designed specifically to help you pay for healthcare expenses. We offer a 6-month plan with no interest, and low interest plans for 24 months or longer. To find out if you qualify visit www.carecredit.com.
